

Tech and Engineering Hiring is Still Strong!

83% of laid-off people found a new position within 3 months of lay-off, and 79% of high-tech workers found a position in the same time frame!

<https://www.wsj.com/articles/laid-off-tech-workers-quickly-find-new-jobs-11672097730>

- US average has been ~1.7 open positions for every unemployed person.
- Mechanical & Electrical Engineering have 37 & 35 open positions for every unemployed person.
- Industrial Engineering has 20 open positions for every unemployed Engineer.
- Software Development is 9 open positions for every unemployed in 2022. If the number of unemployed has doubled, then still ~5 openings for every unemployed person.
